

WatchGuard Endpoint Security Products: Features Based on Platforms

	WINDOWS (INTEL & ARM)	LINUX	MACOS (INTEL & ARM)	ANDROID	IOS
GENERAL					
Web console	■	■	■	■	■
Information in dashboards	■	■	■	■	■
Filter-based computer organization	■	■	■	■	■
Group-based computer organization	■	■	■	■	■
Languages supported in the local console	11	11	11	16	10
LISTS AND REPORTS					
Frequency of sending malware, PUPs and exploit activity information, and blocked programs to the server	1 min	10 min	10 min	Immediately after a scan is completed	N/A
Frequency of sending other detections to the server	15 min	15 min	15 min	Immediately after a scan is completed	15 min
List of detections	■	■	■	■	■
Executive reports	■	■	■	■	■
Scheduled executive reports	■	■	■	■	■
PROTECTION					
Anti-Tamper protection	■				
Anti-Phishing	■		■		■
Real-time permanent antivirus protection	■	■	■	■	
Contextual detections	■	■			
Network attack protection	■				
Anti-exploit	■*				
Zero-Trust Application Service (Hardening & Lock)	■				
Threat Hunting Service: High fidelity indicators of attack (IoAs) mapped to MITRE ATT&CK	■	■	■		
Continuous endpoints risk monitoring	■	■	■	■	■
Shadow Copies	■				
Decoy Files	■				
Firewall	■				
URL Filtering	■		■		■
Device Control	■				
STIX IOCs and YARA rules search	■				
Advanced security policies to reduce the attack surface	■				
Threat Hunting Service: Non-deterministic IoAs mapped to MITRE ATT&CK with contextual telemetry	■				
Anti-Theft				■	■

	WINDOWS (INTEL & ARM)	LINUX	MACOS (INTEL & ARM)	ANDROID	IOS
HARDWARE AND SOFTWARE INFORMATION					
Hardware	■	■	■	■	■
Software	■	■	■	■	■
Software change log	■	■	■	■	■
Information about installed OS patches	■				
Vulnerability assessment	■	■	■		
SETTINGS					
Security settings for workstation and servers	■	■	■	N/A	N/A
Password for uninstalling the protection and taking actions locally	■				
Security for VPN connections (requires Firebox)	■		■		
Secure access to Wi-Fi network through access points	■		■		
Being able to establish multiple proxies	■	■	■	N/A	N/A
Ability to work as a WatchGuard proxy	■			N/A	N/A
Ability to use the WatchGuard proxy	■	■	■	N/A	N/A
Ability to work as a repository/cache	■			N/A	N/A
Ability to use the repository/cache	■	■	■	N/A	N/A
Discovery of unprotected computers	■				
Email alerts in the event of an infection	■	■	■	■	■
Email alerts when finding an unprotected computer	■	■	■	■	■
REMOTE ACTIONS TAKEN FROM THE WEB CONSOLE					
Real-time actions	■	■	■	■	■
On-demand scans	■	■	■	■	N/A
Scheduled scans	■	■	■	■	N/A
Remote installation of the agent	■				
Ability to reinstall the agent and the protection	■				
Computer restart	■	■	■		
Computer isolation	■		■		
Authorized software by hash or program properties	■				
Program blocking by hash and program name	■				
Remote Shell to manage processes and services, file transfers, command-line tools, get dumps, pcap, etc.	■				
UPDATES AND UPGRADES					
Signature updates	■	■	■	■	N/A
Protection upgrades	■	■	■	■	N/A
Ability to schedule protection upgrades	■	■	■	Google Play	App Store
MODULES					
WatchGuard Advanced Reporting Tool	■	■	■		
WatchGuard Patch Management	■*	■	■		
WatchGuard Data Control	■				
WatchGuard Full Encryption	■		■		
WatchGuard SIEMFeeder	■	■	■		

* The feature works on Windows (Intel) and partially on Windows (ARM)

As part of the WatchGuard’s Unified Security Platform architecture, WatchGuard EPDR and Advanced EPDR include these platform features:

	WINDOWS (INTEL & ARM)	LINUX	MACOS (INTEL & ARM)	ANDROID	IOS
WATCHGUARD CLOUD					
Multi-tier and Multi-tenant cross-products management	■	■	■	■	■
Centralized administration, deep visibility, dashboard, and reporting	■	■	■	■	■
THREATSYNC-XDR					
Cross-product security data correlation and detection (Network and Endpoint Security)	■	■	■		
Score-based IOAs and threat prioritization	■	■	■		
Kill process action	■				
Delete and restore suspicious programs	■				
Isolation and stop isolation	■				
Automated response policies	■	■	■		

OPERATING SYSTEM

Operating System Compatibility for Endpoint Security Features
Installation Requirements
Browser Compatibility

- Features in WatchGuard EPDR and WatchGuard Advanced EPDR
- Features exclusively in WatchGuard Advanced EPDR
